Suffering Women

Welcome "Build-Up"

A simple method is saving many women much pain and discomfort. It is based on the knowledge that women's headaches, nervousness, and crank-like pain often are symptoms of functional dysmenorrhea due to a weak, run-down, under-nourished condition. That so many women find relief from these painful symptoms through the CARDUI "Build-Up" is easy to explain. By improving the appetite, assisting digestion and assimilation, CARDUI helps to build physical resistance against periodic pain. Thousands of women also report that CARDUI, taken just before and during "the time," helps to ease periodic pain.
